- Local government relations
- Logistics management
- Site preparation and management
- Implementation of project management teams

For more information about setting up manufacturing in China visit www.PTL-Group.com or contact us at sales@ptl-group.com.

Changzhou, a major city in Jiangsu Province, is located on China's east coast about 45 minutes from Shanghai or Nanjing by train. Changzhou is one of the most important industrial cities in the Yangtze River Delta (YRD), the region with the fastest economic growth rate and largest GDP in China. As an advanced manufacturing base, its five "pillar" industries are machinery, electronics & information technology, renewable energy, advanced materials, and bio-pharmaceutical.
